- Staff member disclosed positive test result on Sept. 30, last worked in the store on Sept. 25.

In each instance, we contacted local health authorities and followed recommended cleaning guidance. We work diligently to confirm to the best of our ability that any staff member affected had limited prolonged close contact with customers, vendors or partners. All receive full pay during their recovery time at home. The health and safety of our staff, customers and partners is our top priority, and we err on the side of caution when making decisions regarding temporary store closures, cleaning procedures, and isolation of additional staff members.
